

TO RUN A PAPER

AS CHRIST WOULD.

Reverend Charles M. Sheldon Will
Make the Effort With the
Topeka Capital.

TO HAVE CHARGE SIX DAYS.

Absolute Control Over the News,
Editorial and Advertisement
Departments—Hopes to
Prove His Theory.

TOPEKA, Kan., Jan. 21.—The experiment of conducting a daily newspaper as its promoters believe Jesus would be tried here soon under the plan proposed by the Reverend Charles M. Sheldon, author of "In His Steps," and delegate at the Christian Endeavor Convention at Detroit last summer.

The Reverend Mr. Sheldon asked for \$10,000 with which to start such a paper. None of the delegates volunteered to furnish the money, and the matter was dropped until recently, when the campaign against the Topeka Daily Capital was launched. The plan was to turn the paper over to Mr. Sheldon and permit him to make the experiment, a tower which was finally agreed to.

Mr. Sheldon will assume absolute control of the editorial, news and business departments of the paper. He will challenge every piece of news, editorial and advertisement, printed, written or published, "what would Jesus do?" He will have complete control of the paper, and he will prove his theory.

In the announcement which the Capital will make Tuesday morning will be this statement:

"The Reverend Charles M. Sheldon will, on March 1, assume the entire editorial and business control of this paper. For six days he will be in charge, and he will prove his theory, 'what would Jesus do?' He will have complete control of the paper, and he will prove his theory."

Mr. Sheldon has always been adverse to writing for Sunday papers, and has frequently said they should not be published, but it is announced that the Sunday morning paper will appear as usual.

One Man Sees Hope.

The experiment has its amusing features, as in the case of Moses Albaugh, chairman of the Republican Central Committee of Kansas. The paper for the last three months has conducted a very active fight against him, and also against the Kansas National Republican Committee from Kansas. Mr. Albaugh said this evening, when he heard of the proposed change:

"I am glad to hear of it, because I know that the paper, when conducted according to the plan, will be fairer to us. Jesus is always on the side of right and justice. We will be better off."

"If Mr. Sheldon continues in charge of the paper during the entire campaign, the chances of Republican success in this State will improve."

Mr. Sheldon refuses to divulge his plans for conducting the paper. He said this evening:

"I realize that the undertaking is a great responsibility and may result in untold good or in the crushing of my hopes of success of such a order. If I am successful, the experiment will show to the people of this country the control of the paper, conducted as Jesus would, and still give its readers all of the news."

"I intend to publish all the news, but I will present it in such a way as to be entertaining and interesting without the usual accompaniment of blood-curdling details and trash, which appeal only to the passions of the readers. I will be at a disadvantage during my control of the paper, as I have never had any newspaper experience. I intend occupying my time between now and March 1 in familiarizing myself with the work so that I shall not be totally ignorant of it."

"The time is undoubtedly ripe for such a paper, and it would succeed as well in Topeka as anywhere else."

IDEAL IS TOO HIGH.

Doctor Chapman Does Not Think
Sheldon Can Succeed.

TOPEKA, Jan. 21.—"I do not see how a paper run as Mr. Sheldon proposes conducting one," said the Reverend Doctor, W. Chapman of the Fourth Presbyterian Church to-night, "can succeed."

"I know Mr. Sheldon quite well, having known him for many years, and I know that he is a very capable man, but I do not think he can succeed in this experiment. He is too idealistic, and he is too much of a dreamer. He is too much of a dreamer."

"It is difficult to say how such a paper could or should be conducted. To challenge every advertisement, every editorial or news article with the question, 'what would Jesus do?' is a very high ideal, and it is difficult to see how it can be carried out. It is too much of a dream."

"I should say that the ideal is too high, and that it is well-nigh impossible. Mr. Sheldon is an earnest, practical man, but he is too idealistic. He is too much of a dreamer. He is too much of a dreamer."

"The paper, as I understand, would not be purely a religious paper. It would not, therefore, appeal to the religious world, and it certainly would not appeal to the other part of the world. It would not be a religious paper."

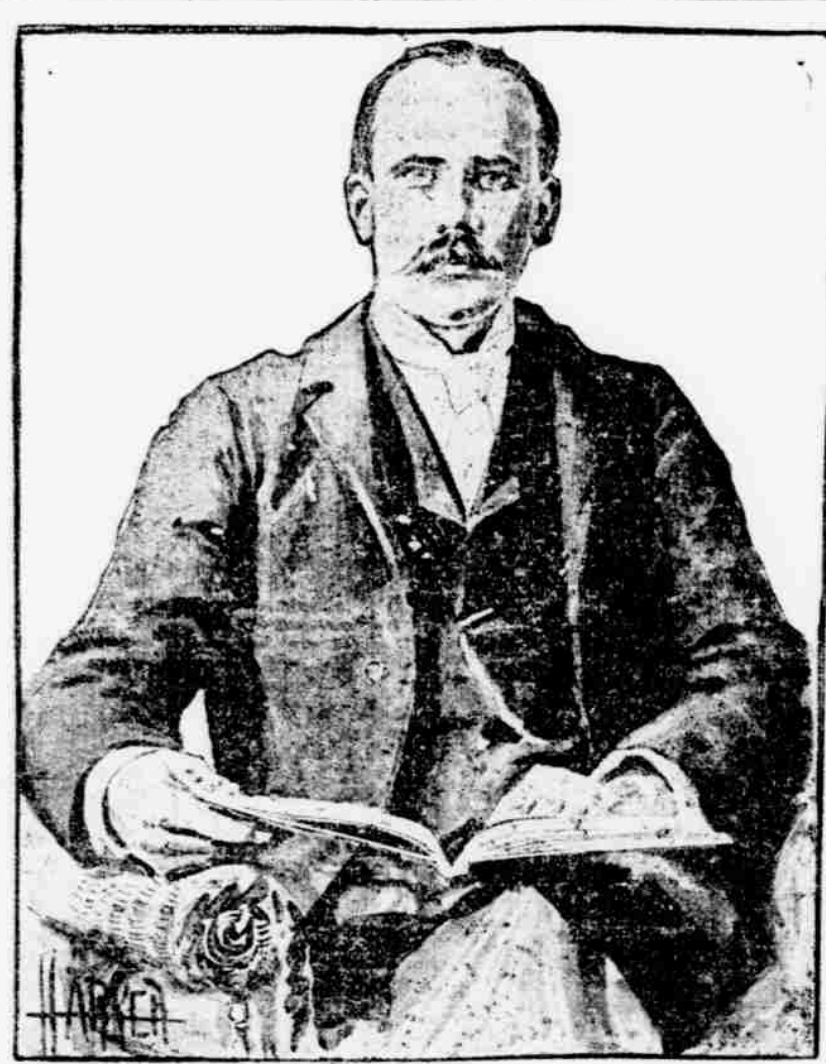

"What would Jesus do if he were on earth? It is about one of the most difficult questions to answer. I doubt if he could live in such houses as this if we were to challenge our present existence with that question."

"I remember that the Reverend Doctor John Graham Taylor, who formerly lived in this State, was a very capable man, but he was too idealistic. He was too much of a dreamer. He was too much of a dreamer."

"I fear the ideal is too high, too unreal, too out-of-touch with the world. This is not the Oriental world that Jesus lived in; and yet we judge things pretty much by it."

Patrick Cronin of No. 305 Clark avenue reported at the Eighth District Police Station yesterday that he had been held up and robbed by two young men in Manchester.

Armed Youths Relieve Him of Money and Valuables.

REVEREND CHARLES M. SELDON
Of Topeka, Kas., author of "In His Steps," to whom the Topeka Capital will be turned over for one week to run "as Christ would conduct a newspaper if he were on earth to-day."

for avenue between Garrison and Monroe streets early Saturday morning. He said he was on the way home, when he encountered the two young fellows, who surrounded him to throw up his hands. At first he said, he thought it was all a joke, but it did not take long to realize that they were in earnest.

A search of his pockets with a tin attached to his belt, revealed a pocketbook and a few cents in money were stolen from him. He described the two robbers as being about 20 years old each.

PUBLIC CONSCIENCE

NEEDS AWAKENING.

All the Churches of Frankfort Set
Apart To-Morrow to Pray
for Peace.

RECENT TRAGEDIES DEPLORED.

Committees Grant More Time to
Contesters in Which to Pre-
sent Their Case—Demo-
crats Confident.

Frankfort, Ky., Jan. 21.—The churches of Frankfort have decided that next Tuesday shall be set apart in this city as a day of humiliation and prayer. Services will be held in the Episcopal Church at three different times during the day—the first service at 9 a. m., the second at 4 p. m., and the third at 7 p. m.

The churches uniting in the observance of the day include the Episcopal, Baptist, Methodist, two Presbyterian, Christian and Catholic, all the churches in Frankfort. The churches of the various denominations, announced from their pulpits this morning that the churches of the city are united in a day of prayer for the people of the city, and for the people of the world.

The churches of the city are united in a day of prayer for the people of the city, and for the people of the world. The churches of the city are united in a day of prayer for the people of the city, and for the people of the world.

RIOT IN NEW YORK

TENEMENT HOUSE.

One Italian Was Instantly Killed
and Two Others Died From
Their Injuries.

TWO FAMILIES INVOLVED.

Police Fired Upon by One of the
Culprits—Three Arrests Have
Been Made—Charge of
Homicide Filed.

New York, Jan. 21.—Three Italians of one home were shot to death in an Italian tenement house on East Eleventh street at noon today, and one of the worst Sunday brawls the East Side has seen for some time.

Antonio Colletti, 27 years old, married, was shot through the lung and died in his brother's arms. His brother, Vincent Colletti, 19 years old, was shot in the head and died in the hospital. Vincent Colletti was shot in the head and died in the hospital.

MONEY EASIER,
PRICES HIGHER.

Relaxation in Foreign Centers and
Business Activity Helped
the Market.

OUTLOOK IS ENCOURAGING.

There is a decrease in the volume of payments from clearing-houses, but, as Dunn's review points out, this is due to the loosened volume of speculation here, as compared with last year, and clearing-houses of this city are better off than a year ago. The iron and steel industry, which had reached a period of hesitation with the turn of the year, seems to have received a new stimulus from the concessions made in price, and one contract of 2,000 tons of steel for export is reported.

The relaxation in the money market, with resulting increased demand for more currency paper and lower discounts naturally fosters an extension of business. Whether the new year is to maintain the phenomenal run of 1900 must be doubted, but present conditions are certainly encouraging.

With the influx of money from outlying centers and the consequent easing of discounts, the effort to draw gold from the Treasury is lessened. The Treasury is less likely to be renewed strain in London than it was at the end of the year. The Treasury is less likely to be renewed strain in London than it was at the end of the year.

"I understand they ask an advance of 20 cents per ton on the mine steel and 10 cents on the mill steel. It is not a very large advance, but it is a sign of things to come. The Treasury is less likely to be renewed strain in London than it was at the end of the year."

EARTHQUAKE IN MEXICO.

Seven Persons Reported Killed and
Sixty Injured.

Guatemala, Mexico, Jan. 21.—An earthquake
shook here at a quarter before mid-
night Friday, and caused serious prop-
erty damage. Many houses were de-
stroyed, and some of the light construc-
tion was injured. There was great con-
fusion, and people rushed into the streets,
many carrying their families. Seven
people were killed outright and sixty
wounded, and are being cared for in
hospitals. It was reported that the
earthquake had caused a great deal of
property damage. Local scientific
men believe that the earthquake was
caused by a volcanic eruption, and
that there will be more earthquakes
in the future. The earthquake was
felt in many parts of Mexico, and
caused great damage to property.
